# INTEGRATED DESIGN

CONTROL AT YOUR FINGERTIPS

## EFFICIENT ENDODONTIC TREATMENT

- Rotary and Reciprocating Files
- WAVEONE™ TECHNOLOGY

Streamlined and factory installed.  
Enjoy the enhanced safety and treatment efficiency that comes with the NSK NLZE electric motor system's compact design and cutting edge features.

# POWER OF INTEGRATION

The DCI Edge and NSK engineering teams from around the globe have designed a best-in-class intuitive experience.

## INTEGRATED AND READY TO GO

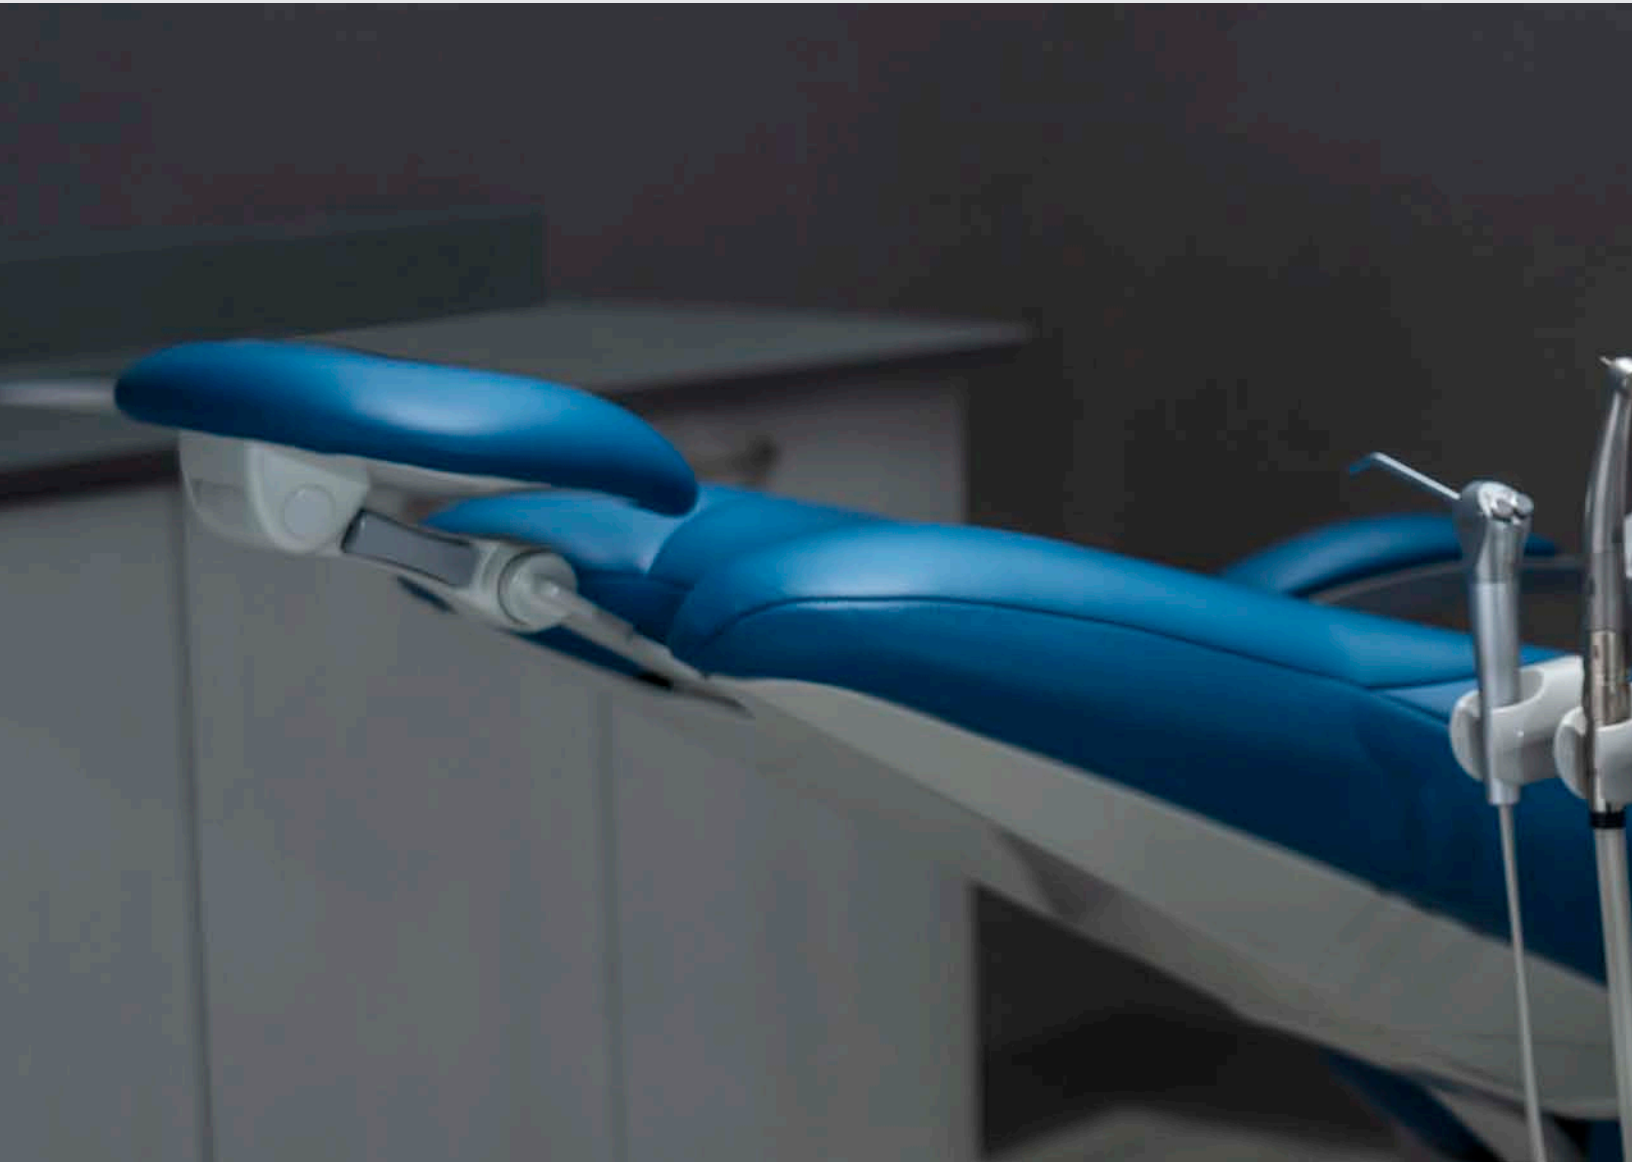

Easily access essential clinical and diagnostic devices such as the Dentsply Sirona Cavitron system, and the ACTEON® SOPRO family of intraoral cameras, piezoelectric scalers, and curing lights.

# EXPERIENCE NSK PRECISION

## THE NSK NLZE ELECTRIC MOTOR: POWER, OPERABILITY, SAFETY

Experience award-winning design with the NSK NLZE electric motor engineered with superior power that expands the possibilities of dental treatment.

With a speed of 100-40,000 rpm, and a max torque of 4.2 Ncm, the NLZE offers superior operability and versatility. It also includes NSK's proprietary Contra-Check function for safety.

# CUSTOMERS ARE AT THE CORE OF DCI & NSK

## A SHARED PASSION FOR EXCEEDING EXPECTATIONS

We invest in design to create high-performing, timeless products.  
We insist on business efficiencies, so you can benefit from the savings.  
Your investment is protected with a five-year warranty for DCI Edge  
equipment and a worry-free warranty from NSK.

DCI has served customers worldwide for over 35 years; NSK for over 88 years.
