**Comfort You Can Feel.  
Support You Can Trust.**

Series 5 **Plus** Dental Stools

# Health + Comfort

Advanced anterior seat tilt, intuitive controls, and smooth mobility support healthier ergonomic posture for all day comfort — helping reduce fatigue and promoting clinician endurance.

## Easy Adjustability

Adjusts quickly and intuitively with multiple height options (5" to 7.5" depending on cylinder selection), a 13° anterior-tilt seat range, and a ratcheting backrest height for personalized, all-day support—available on both the Clinician's and Assistant's Stools.

Clinician's Stool shown in Diplomat Blue Asepsis Upholstery.

## Height-Adjustable Cylinder Options

Supports proper seating across clinician and assistant roles, with multiple stool height options to improve access around the patient.

	Lowest Point of Seat Height	Highest Point of Seat Height
Clinician's Stool Standard	18.50"	23.50"
Clinician's Stool Tall	21.75"	29.25"
Assistant's Stool	25.75"	33.25"

## Low-Profile 65 mm Smooth Rolling Casters

Allow clinicians to move freely around the operatory without colliding with surrounding equipment. The compact height and smooth-gliding design roll easily under 12 o'clock delivery systems, supporting efficient repositioning and uninterrupted workflow.

## Advanced Anterior-Tilt Seating

Promotes proper ergonomic alignment starting with the pelvis all the way up through the sacral, lumbar, thoracic, and cervical spine, reducing pain, fatigue, and musculoskeletal strain while supporting clinical endurance and career longevity.

Clinical Benefits of Anterior-Tilt Seating	DCI Edge Brand		Other Brands
	Anterior-Tilt Seat (13° Tilt) with Series 5 Plus Stools	Clinical Impact of Anterior-Tilt Seating	Flat Seat (0° Tilt)
Ergonomic Alignment Factors	Anterior-Tilt	Supports lumbar neutrality	Flat Seat (0° Tilt)
Pelvic Position	Anterior-Tilt	Supports lumbar neutrality	Fixed
Lumbar Position	Maintained	Reduces disc compression	Flattened, Lumbar Lordosis risk
Hip Angle	100-113°	Reduces hip flexor strain	~90°
Muscle Activation	Lower	Less fatigue	Higher
Forward Lean	From hips	Lowers injury risk	From spine
Upholstery Type	Textured – Edge Upholstery	Eliminates slipping Supports safer ergonomic positioning	Non-textured

# Stability + Safety

Edge Upholstery's non-slip surface on both the Series 5 **Plus** Clinician's Stool and Assistant's Stool, combined with our patent-pending brake mechanism on the Assistant's Stool, provides unparalleled stability and safety for the entire dental team.

## Clinician's Stool

Designed to deliver reliable stability in the operatory, the Series 5 **Plus** Clinician's Stool supports confident positioning and controlled movement throughout procedures. By providing dependable support without restricting mobility, it helps improve balance, enhance control, and maintain a secure working position.

- **Advanced anterior-tilt seat capability** — allows proper ergonomic alignment supporting clinician endurance and career longevity
- **Stable base**— supports consistent, confident positioning during patient care
- **Edge Upholstery** — delivers anti-slip performance

Clinician's Stool and Assistant's Stool shown in Diplomat Blue Asepsis Upholstery.

## Anti-Slip Performance with Edge Upholstery

Edge Upholstery's unique textured surface holds you securely in place, eliminating slipping during procedures while maintaining a soft, supportive experience that promotes safer ergonomic positioning and greater control when precision matters most.

Edge Upholstery is color-matched to Ultrafabrics® Ultraleather.

## Assistant's Stool

Featuring the industry-leading anterior-tilt seat and a patent-pending brake mechanism, the Series 5 **Plus** Assistant's Stool delivers dependable stability without restricting movement. Designed around real assisting workflows, it supports confident positioning and controlled movement throughout procedures—promoting balance, safety, and efficiency during patient care.

- **Advanced anterior-tilt seat capability** — allows proper ergonomic alignment supporting clinician endurance and career longevity
- **Large foot ring** — enables controlled movement while maintaining balance
- **Patent pending brake mechanism** — provides added control and safety when stability is critical. Remains stable during procedures and repositioning
- **Stable base** — supports consistent, confident positioning during patient care
- **Edge Upholstery** — delivers anti-slip performance

Edge Upholstery

Ultrafabrics®  
Ultraleather

Stools are available in all DCI Edge standard Ultraleather color options, excluding Wired.
